

DIGITAL STEM THERMOMETER

BE 151

The ergonomic shaped high precision digital thermometer is intended to be used anywhere a precision glass stem thermometer or other type thermometer is used. The functions allow easy viewing of display information vertically or horizontally automatically when rotating the display. Selection of Celsius or Fahrenheit units through menu. Accuracy: $\pm 0.05^{\circ}\text{C}$ ($-20^{\circ}\text{C}\dots+180^{\circ}\text{C}$). Auto-OFF-function after 10 minutes, continuous Mode.
